DR. WILLIAM A.
BOOTHE

The military has intensely studied custom IntraLASIK resulting in its approval for astronauts and fighter pilots. Many authorities believe that IntraLASIK is safer than contact lenses. Knowing that you have available the most experienced IntraLASIK surgeon in the world gives you the peace of mind that you deserve. Boothe Eye Care and Laser Center, where experience and technology come together and where the patient is number one. Call for a free consultation to see if you are a candidate at 214 328 0444.

WILLIAM A. BOOTHE, M.D.
